REACH SVHC Statement of Compliance

September 24, 2026

NO Substances of Very High Concern in Kentek Products

Kentek Corporation is a responsible company that works to contribute to Sustainable Development by integrating environmental and social matters into our daily work. As part of our total quality management, we are concerned about the environmental, health and safety impacts of our products and processes. From our business partners, we expect the same level of commitment, including full compliance with applicable legal requirements.

The European Union (EU) has adopted a new regulatory framework for the Registration, Evaluation and Authorization of Chemicals, the Regulation 1907/2006/EC (REACH). REACH establishes obligations for Manufacturers, Importers and Downstream Users of chemical substances imported to, or produced in, the European Union in amounts exceeding 1 ton/year. Only substances registered at the EU Chemicals Agency will be allowed for use in the EU/EEA (European Economic Area).

Kentek Corporation is a downstream user of chemical substances, and as such, is actively cooperating with our suppliers to ensure compliance with the REACH regulation requirements.

By this letter we inform you that the articles/products/components listed below are supplied by Kentek Corporation. We are not using any Substance of Very High Concern (SVHC) as defined in the most current Annex of the REACH Regulation (candidate list updated February 2026) in a concentration above 0.1% in weight.

Kentek Product Lines: **EVER-GUARD® Curtains and Partitions, FLEX-GUARD® Curtains and Partitions, TABLE-GUARD™, BENCH-GUARD™ and Beam-Tube Optical Table Barriers, Laser Window Shades and Blocks, Welding Screens, Laser Enclosures and Room Blackout Curtains**.

All information provided in this REACH Document is accurate, to the best of our knowledge, as of the date this certification was issued.
