

Laser welding safety requires compliance with laser protection, welding safety, and impact safety standards.

Kentek's Laser Welding Window is ideal for 1070nm fiber welding shade 3 applications.

Features and Applications

- Extremely high laser protection levels
- Protection against 1500+ watts of stray reflection
- Combined laser protection and welding safety window

ACR-A70W3 Laser Welding Safety Window, Shade 3

Specifications and Operational Parameters									
Protection	OD 4+ @ 200-400nm OD 5+ @ 870-1200nm OD 6+ @ 1000-1120nm OD 7+ @ 1020-1100nm OD 5+ @ 9000-10600nm U10L3R5KTKZ87 W3 D AB4 KTK 1070 CE
