

Use, Maintenance, and Cleaning Instructions for EVER-GUARD® Laser Curtains and Freestanding Barriers SLC-EVG

General Use

The primary use of your EVER-GUARD® Laser Safety Containment System is to provide a safe environment in which to operate the laser. Follow installation instructions carefully and contact your Kentek representative for further assistance if needed.

Maintenance

By performing a routine inspection of the Laser Safety Containment System, you can ensure that it functions as intended, free of potential hazards. Should you detect any area(s) of concern, discontinue use and contact your Kentek representative to assist in a solution.

Cleaning

It is safe to use a soft microfiber cloth, a soft sponge, or a soft bristle brush with Windex® or a solution of mild dish soap such as Dawn®.

DO NOT USE scouring pads, steel wool, abrasive products, turpentine, white spirits, citrus-based cleaners, acetone, contact cleaners, paint thinners, or methyl ethyl ketone (MEK).
